

Jerusalem Bible - XXXIV

I. Christ in a Boat in Aegean Sea - East of Athenian Republic and Slavery

In one mannerism, Christ is modern and Prophetic, he is a man who resembles an attitude of inspiration and optimism which becomes Paulinian with his travel to the Aegean and the southern Thebes in Greece in the period between first 40 BC - 20 BC and then in the period 40 AD with Paul.

The Christian idea of optimism is then mixed with reveries on Christ and the Bible and its modern spirit and even Spiritual philosophy which then is modern subjectivity and antagonism in insurrection and liberation as Christ is met with a thousand, perhaps one hundred in realism other boats of Ianian, and Lanain monks who then follow him in history as a circumference of monasteries devoted to the study of these Bibles.

In medieval times Islam was followed by all Caliphates to oppress the Prophet Mohmmad who wears a modern suit and preaches to women their liberation all day in his sermons.

II. Jerusalem and the Pope to visit Tel Aviv

In fact the Pope is this Paulinian apostle alive today who then lives by radical politics, Communism and all theological principles of the Bible - he witnesses Sirohi as the new theological young man and names him a Second Christ.

He is told of pristine letters, nominal Bibles and even Jerusalem Bibles in encyclopaedia with Quran and Kabbalah in Jewish period - he deems this to be an Inspiration equal to Paul and St. Matthew.

III. Paul in Jordan, Christ in Israel, Mohammad in Travels to Lebanon and Iraq

In fact the geography is then landed consciousness distinct from history or even economics or physics - it is a modern consciousness that follows the development of continents, the abundance of rivers, or even seas and oceans to be abundant proof of nature and biological proof of eternal life and a long geological history and scope to us.

All of this is finally the word - Jordan.

IV. Christ teaching Theology

In fact in 10 BC, Christ was teaching a mass theology - ignore the sciences - ignore all science - and just follow the land, and seas and hills - then be embedded in this spiritual life it reveals as news against science -

- I. Hills age into billions of years, and we are part of the hills in theology, we are landed people.
- II. Health is eternal and Resurrection is a fact.
- III. Modern capitalism is based on terms like "Lystra" or even "Jordan" a new addition -

Today Jordan in Israel witnessed by a scale of Paul's reference of good and liberal Judaism - a large shift to modern lights and modern capitalism to free commerce and also in fact monastic freedoms from the Pope to learn old Jerusalem Bibles in fact in line with conversations which are with the good and inventive Deterior.
